## WELCOME TO OUR SCENERY EDITION

### Scenery sets the stage for our models.

Model trains don't exist in a vacuum. When you build scenery, you create a miniature world for your trains to inhabit. From rocky mountains to high plains, coastal beaches or deep woods, trains can be found just about anywhere. Today's selection of scenery products is broader than ever and suits any setting you can imagine, and today's modelers are using them to create ever-more-realistic scenery. If you've been intimidated by making scenery for your railroad, don't be! Creating scenery is fun and you may surprise yourself with what you can accomplish using the materials you'll find in these pages.

**Our February Flyer focuses on Scenery.** Starting on page 10, we are proud to bring you Walther's own Brand Spotlight focusing on SceneMaster™ and Chooch. Together, both lines offer a comprehensive line of scenery products to complete your layout transformation.

**COVER STORY:** Not far from Tumwater Falls sits a pretty little A-frame cabin, deep in the woods of western Washington. Every summer the family gathers to take advantage of the warm, sunny weather, so fleeting in the Pacific Northwest. At first the trains were a noisy curiosity as the Tenino Western freights rumbled by. But before long the kids took an interest and began to run out and greet the trains, waving at the crews. By summer's end the seeds had been sown and that Christmas the train under the tree stayed up long after the tree came down. This playful scene is the work of Tyler Whitcomb, in N scale.

Above, a Canadian National TurboTrain zips through a beautifully scenicked N Scale layout by David Whiteside.

To the right, Andrew Kersting captures the fantastic color variations of exposed rock faces as an HO scale SD45R rumbles past.

## MINOR PERMISSION

Minors (under 18) must have parent, or guardian signature and contact information. See instructions at [walthers.com/NMRBO-Permission-Form](http://walthers.com/NMRBO-Permission-Form)

## RULES, ENTRY REQUIREMENTS, SPECIFICATIONS & QUESTIONS

All information can be found online including official rules, permission forms for minors, critical dates, and instructions for how to submit your entry. Any questions, please contact [custserv@walthers.com](mailto:custserv@walthers.com). **All entries due July 1, 2025.**

### HELPFUL TIPS AND INFORMATION FOR FREESTYLE CLASS

**BACKDROPS** Backdrops are not required. However, a thoughtfully designed backdrop that enhances the theme and brings a scene to life could count towards the overall appeal and creativity. Should you decide to include a backdrop, there are no specifications or requirements for size or construction.

**FASCIA** A fascia is not required. It is recommended that you think about how you finish the edges of your scene so as not to detract from the overall presentation.

**BASE** We are not specifying, nor recommending base requirements or construction. A simple foam insulation base is adequate as is a sheet of plywood cut to size. There is no need for elaborate bench work as this is an area that will not be judged. The entry does not require electrical work, however the inclusion of a train and track are required.

### ENTRY FORMAT FOR ALL CATEGORIES

All entries are submitted online through the NMRBO site. Each entry consists of filling out the online form and submitting digital photographs. The more the better! Photos must include:

- Inclusion of a tape measure or ruler to verify size, length and width.
- Photos from several angles; top down, right and left and front.
- Close up or detail photos not necessary but very helpful, especially if you have something unique.
- Photo of modeler(s) with the layout.

**ENTRY  
FORMAT**

**For Silver Screen Scenes entries:**

- Must list the 3 Walthers products used.
- Must also include photos of the 3 Walthers products used.
- Must include statement about the movie scene or theme selected to model.
