WELCOME TO OUR HOLIDAY EDITION

Tradition. Setting up a train set under the tree, baking homemade cookies with the kids, gathering with family to ring in the season. However you celebrate the holidays, traditions are what bring us back time and time again, reminding us what matters most.

For more than 90 years, it's been our tradition at Walther's to create products that inspire, connect, and bring joy to hobbyists everywhere. From our earliest days to today, we've taken pride in being part of your holiday memories and helping you build traditions of your own. Because in the end, it's you—our customers—who remind us what matters most. From all of us at Walther's, **we wish you a very Merry Christmas and a joyful New Year.**

COVER STORY: Above the hush of the gently falling snow you can hear the children's laughter. Expressions of joy spread across their faces as they proudly gather around the snowman they worked so hard to build. Excitement and anticipation is in the air. Tomorrow, there will be presents under the tree, and a day filled with family, food and fun. The magic of the holidays is right around the corner. There's also a certain kind of magic that happens when the lights come on throughout your layout. Walther's SPACES by Cornerstone™ make it easy to add detailed interiors and lighting to your favorite Cornerstone® structures. There are five kits available, including the Brick Cape Cod Interior Lighting and Detail Insert (933-4704) as seen on the cover, and more on the way. See the entire line at walther.com/spaces.

NEW EMD SD50 Diesel Locomotive

Check walther's.com for current pricing.

Back on H0 rails in several new paint schemes, the Walther'sMainline Electro-Motive Division SD50 stands ready for heavy freight service on your layout. The accurately sized H0 scale model is based on a hard-working prototype that's been hauling tonnage for more than 40 years. As demand for higher horsepower locomotives grew in the 1970s, EMD began testing a new six-axle model in 1979 that eventually entered production as the SD50 in 1981. With EMD's powerful 3,500 hp diesel engine at its core, the SD50 joined the rosters of several class 1 railroads. SD50s continue to serve in regional and short line service today.

With a long list of features, the Walther'sMainline EMD SD50 is sure to be a star performer on your layout!

NEW 50' AAR "Improved" Double-Door Boxcar

Check [waltersmainline.com](https://www.waltersmainline.com) for current pricing.

Not to be confused with earlier AAR Double-Door Boxcars, the new WaltherMainline 50' AAR Double-Door Boxcar is based on a later prototype first built in the late 1940s and 1950s. These more modern cars featured improved Dreadnaught ends and metal Apex running boards. Wide double doors on each side allowed for easy loading and unloading of large cargo, such as lumber, building materials, appliances and more. These cars spent decades roaming the rails across the country. With newly tooled double-door sides and other accurate details, the WaltherMainline model captures the look of its long-serving prototype. And like their prototypes, these durable models will provide years of reliable operation on your H0 railroad.

Other features include:

- All New Double-Door version with 16' door openings and two Youngstown doors on each side
- Accurately detailed including:
 - 4-3-1 "Improved" Dreadnaught ends
 - AAR tab side sills
 - Detailed underbody with AB brake equipment
 - 7-rung side and end ladders
 - Factory applied, separate Ajax hand brake
 - Factory applied, separate Apex simulated metal running board with see-through tread
 - Correct 33" RP-25 turned metal wheels in AAR Bettendorf trucks
 - Proto MAX™ metal knuckle couplers

Pre-production model shown.
